

The Three Incestuous Sisters By Audrey Niffenegger You get to be a voyeur to kinky wrongness without the guilt later while you sit around the dinner table and flashback to the dirty panels while talking to your unknowing sisters. Audrey Niffenegger let's the pictures speak for themselves and it's obvious that this book has another deeper layer under the exterior layer but honestly.

Audrey Niffenegger (born June 13 1963 in South Haven Michigan) is a writer and artist. The Time Travelers Wife is an unconventional love story that centers on a man with a strange genetic disorder that causes him to unpredictably time travel and his wife an artist who has to cope with his constant absence. The Time Traveler's Wife is an unconventional love story that centers on a man with a strange genetic disorder that causes him to unpredictably time travel and his wife an artist who has to cope with his constant absence. I thought I must have read it wrong at first (I spend inordinate amounts of time reading/writing pornographic fan fiction finding subtext in every show since The Honeymooners and imagining strangers in their underwear. When I opened the cover to this atrocity what I learned was that I am a twisted perverse person who can be turned on even by something as insanely wrong as the idea of shagging ones own sisters. English I sort of feel bad for rating this a two because I know it took an INSANE amount of work to create this book (14 years worth by Niffenegger's reckoning) but honestly it really was just okay. The story is loosely held together through that and even though it is there -- and a rather disturbing story it is too -- it never feels like more than a series of vignettes. When the lighthouse keeper dies and his son comes to stay he shakes up things among the sisters falling in love with one and causing another to descend into madness (the third? Already mad I think:

Will take you down the rabbit hole of kinky wrongness, Someday I will get bored and buy this book for my sisters for Christmas. Then they will hate me and curse me and whisper between each other about how they worry I may crack one day. They will consult their psychics and their astrology charts to see where I went wrong. I liked the illustrations and I liked how it was creepy and weird but it wasn't creepy enough to be brilliant, It's obvious that Audrey Niffenegger thought about this book a lot (she even mentioned at the back that she spent years and years on it) but it didn't wow me: I think if you're going to call a book 'The Incestuous Sisters' you really have to go for it because otherwise it's kind of a letdown for the readers: She is also a professor in the MFA Creative Writing Program at Columbia College Chicago, Niffeneggers debut novel The Time Travelers Wife (2003) was a national bestseller: Her Fearful Symmetry (2009) Niffeneggers second novel is set in Londons Highgate Cemetery where during research for the book Niffenegger acted as a tour guide: Niffenegger has also published graphic and illustrated novels including: The Adventuress (2006) Audrey Niffenegger (born June 13 1963 in South Haven Michigan) is a writer and artist. She is also a professor in the MFA Creative Writing Program at Columbia College Chicago: Niffenegger's debut novel The Time Traveler's Wife (2003) was a national bestseller. Her Fearful Symmetry (2009) Niffenegger's second novel is set in London's Highgate Cemetery where during research for the book Niffenegger acted as a tour guide. Niffenegger has also published graphic and illustrated novels including: The Adventuress (2006) The Three Incestuous Sisters (2005) The Night Bookmobile (2009) and Raven Girl (2013): Raven Girl was adapted into a ballet by Resident Choreographer Wayne McGregor and the Royal Opera House Ballet (London) in 2013: A mid career retrospective entitled Awake in the Dream World: The Art of Audrey Niffenegger was presented by the National Museum of Women in the Arts (Washington D: An accompanying exhibition catalogue examines several themes in Niffenegger's visual art including her explorations of life mortality and magic. {site_link} The Three Incestuous Sisters is an evocative illustrated book by the best-selling author of The Time Traveler's Wife Audrey Niffenegger: Reminiscent of the gothic style of Edward Gorey Niffenegger's visually stunning narrative affirms her genius as a storyteller: These rich pages present the tale of three very different sisters: one who is beautiful one who is smart and one who is talented. A melodrama of sibling rivalry unfurls as one sister is driven mad with jealousy due to the passionate love affair of another, Escalating to a dizzying climax the romance of the two lovers ends

in sabotage shame and despair, Haunting illustrations and lyrical prose depict a timeless tale of love revenge and ultimately transcendence. The Three Incestuous Sisters is a unique and lavish tour de force which showcases Audrey Niffenegger's incredible talent as an artist and a writer. The Three Incestuous Sisters Loved this! Reads like an eerie warped Shakespearean tragedy accompanied perfectly by hauntingly stunning art. Just my cup of tea! Need all of the art by Audrey Niffenegger immediately. English So today is my birthday and my fans Tracy and Amy have requested that I write a review of this demented book. I find it amusing that the directions for posting a review includes the phrase What I learned from this book (as if we're kindergarteners just back from summer vacation): One year ago at Christmas time I was shopping with my latest charming psychotic former crack dealer boyfriend: and suddenly the cover of this book loomed up at me from the gift book table, imagining a title like Three Incestuous Sisters is so not even beyond me): I had stumbled across the wrongest book ever to be fashioned, I reserve my incestuous behavior for cousins and members of my extended hippie family, I only play the banjo on the porch on alternate Thursdays: with it's delicate elegant illustrations as if for a children's bedtime storybook. well it took me to secret Freudian places that I didn't volunteer to travel to. and the book is large okay? It's not like you can disguise the fact that you are staring at lesbian incest porn and getting off on it, My date wandered over to see what I was losing my freak over and then backed away slowly: Even a former crack dealer thought there was something wrong with me. This story is obviously a labor of love but it didn't work for me at all. If it really intrigued me I would be happy to read it again and think about it more but it just didn't interest me enough: I liked how there were very few words but it wasn't creepy enough to pass as a brilliantly creepy book, There's some weird stuff in there no doubt but I was expecting more from the story: The plot was interesting but the execution didn't fully take off: My favourite sister was Clothilde and Clothilde's descent into madness was the best bit about the book: It is a very quick read but I wouldn't necessarily recommend it. English The Three Incestuous Sisters is the second "visual novel" by American author and artist Audrey Niffenegger. The original books were hand printed: a limited edition of ten copies: The drawings are aquatints featuring three sisters Clothilde Ophile and Bettine who live by the sea. They all look quite similar but conveniently have different coloured hair: Two of them fall in love with the same man and jealousy leads to nasty consequences, The story is a little bizarre but Niffenegger explains it needs to be imagined as a silent film made from Japanese prints a melodrama of sibling rivalry. The text is certainly minimal often as little as one or two words on the page opposite the prints. In her afterword Niffenegger explains the complicated process involved in the hand printing: The prints in subdued colours (except for the sisters' hair) are quite individual and Niffenegger's style is distinctive. It is easy to see from her later works (The Night Book Mobile and Raven Girl) that both the quality of the art and the storytelling have improved since the earlier books. Dedicated Niffenegger fans may wish to own a copy; borrowing from the library is recommended for those who are merely "interested": English The Three Incestuous Sisters is undoubtedly strange but it is also wonderfully Gothic. The illustrations are dark and hold almost a sense of enchantment. Told mostly through pictures (painstakingly created but still only 'ehh' most of the time) the text in this book is really just a series of captions for the pictures. The story; three sisters Bettine Ophile and Clothilde live alone and carry on their lonely lives near a lighthouse: What follows is a rather disturbing tale; story and art somewhat reminiscent of Edward Gorey or Tim Burton's The Melancholy Death of Oyster Boy and Other Stories, There are parts of the story and panels that tell it that are rather striking: And because it is told in pictures it's not like it takes up a huge chunk of time: I loved the structure of the story even though some parts were really jarring and unsettling: I'd consider buying my own copy just to be able to reread it sometime and see what I missed before, It could have been clearer at times there were just moments of but overall I guess it was okay, I'll give it a reread sometime in the future and then we'll see. If you have sisters. just be prepared. If you don't. well. be glad. Okay. they already know where I went wrong. But I will have the last laugh. because no one can resist the power of the kink. Curse you Audrey Niffenegger. You sick.

And boring. English This book was so-so for me. This book has very few words.C.) in 2013. but in this case it's actually helpful. But no. it was as if the gods of bookstores knew my soul.Now. just so you understand. I am not normally attracted to my sisters. Yes there are three of us. Yes we each have differently colored hair. Yes we have all slept in the same bed together. But. and I must emphasize this. we have NEVER known each other in the biblical sense. Most of us have all our teeth.But this book. I was dragged kicking and screaming. in the middle of a public store in Berkeley. and when my brain did the flip into bizarroland. I started giggling maniacally. People were staring. Good thing it was Berkeley. they're used to this sort of thing.So. there you have it. You are forewarned. This book with it's evil ways kinky freak of a girl. You are my people. English Stunning book. Would love to read again. English Seems unduly influenced by Edward Gorey. Creepy pointless it's not interesting enough to think about. Different. A lovely and rather surprising visual novel.). Still. English I really liked this. I though the illustrations were beautiful. English So.This book was on something. MaybeOr something I don't know.Things happened in this book. Don't know really what to say. I mean it exists and I read it so.I didn't hate the book. It had characters and a story. somewhat. I liked it well enough. I could see the potential. If only some things were more expanded on. That's really all I have to say. English
