Fantastic English Excellent instalment of the men of the border lands series. If you enjoy reading futuristic menage romance with a post apocalyptic story line then you will love this series. With an interesting story and hot sex you can't go wrong: Valerie had to leave the home she was in and has been searching for a pair of men to make a home with, She's honest right away and they decide to take her in awhile until she decides what to do or see if they can work out for her: Great ménage sex makes Grant realize he loves her but doesn't tell her 'til they get her back from being abducted and beaten. There is a lot going on in these series stories and they are full of suspense action some violence and lots of loving, The Border Lands are a dangerous place but love and passion are often the keys to surviving: Valerie needs someone to take care of her and she thinks she's found it in Luke and Grant, But will they take her in or must she continue looking? Deeply emotional characters we like

right away. Luke and Grant find her in the cold and take her in. Grant has romantic hesitation because of a bad relationship. Luke is already on board with Valerie. She contributes by cooking and cleaning. It's a harsh living to be had in post catastrophe USA. Rough country and hard conditions make life a struggle. Highly recommend. Nothing will stand in their way. Finding Her Men (Men of the Border Lands #7).
