I know I shouldn't have. Lots of people die. But that's what made this so good. That's what really creeped me out. Dinosaurs Arising (Dinosaur Lake #2) Review to come. Until one of his park rangers.

Here we go again. Chief Park Ranger Henry Shore thinks its over. Winged gargoyles that's what they look like but much larger. They are breeding. They are hungry and they need food for their offspring. The park and surrounding towns become their feeding ground. No one is safe. Let me explain. She gives you authentic characters. They have their flaws foibles. You like them or you don't. I figured he'd get eaten. And this is my favorite thing she does. She kills off her characters. I'm not saying the sheriff died. I'm not saying they all die. The story never slows down. You'll want to look away but you won't be able to. You'll have to keep reading find out what happens. Let's get to the monsters now. They are just that monsters. They've evolved are very different. But not these. They are giant gargoyle like things. And they are blood thirsty cunning and relentless. They never stop coming for you. Every book Kathryn writes is like this. She never lets you down. All of her characters strong or weak are genuinely written. And growing. And this one has wings. Ugly Gargoyles Henry calls them. For this one isn't alone. love the old and new characters that's in the story. a must read.com. This particular book is proof of that. OMG. And growing. And this one has wings. Ugly Gargoyles Henry calls them. For this one isn't alone. This is a fun mindless read.blogspot. A national park is once again invaded by dinosaurs. And some can fly. Never overly gruesome but still thrilling. I love monster books and movies. In Dinosaur Lake I the prehistoric beasts were in the water. Now they are flying. Henry is such a good guy. He reminds me of Harrison Ford. Ranger Elle Stanton is back in a big way. Elle reminded Henry of his friend George. She has a superstitious nature. She is a retired

soldier and was drawn to Crater Lake. I would definitely like to know her story. The characters will win you over. You will feel their pain fear terror shock and awe. Their hearts are big and their bravery even bigger. These are prehistoric critters shrouded in mysticism. I am excited. I think the cover with give us a hint. I live in a small quaint town in Illinois
