Ginny Peterson thought she had it all—great job great friends and an even greater boyfriend—until she caught him with the sultry vixen from the fifth floor! Determined to hold her head up and move on she buries herself in work until her BFF coaxes her out for a night on the town. **Pdf oceans at the end of the lane** In walks Tristan Armstrong—a British tattooed billionaire with an accent that curls her toes! He's rich powerful and can't keep his eyes off Ginny and her delicious curves—only problem is. **Oceans Apart, fictional** I hope you enjoy it! Oceans Apart #5 I was given this Arc of Oceans Apart 5 in return for a honestof a review! Amazing Amazing Amazing! Amazing what love does to people! Tristan and Ginny are two people that have been torn apart but managed to never let the misunderstandings and negative aspects of interference keep them apart. **Oceans Apart, kindle reader** I liked that there was some drama in this book but I have to be honest I did not like how quickly all of the issues were taken care of I thought it might have been better if the Brad thing had gone on longer like he got out on bail and kept taunting Ginny and her fear of Tristan going after him would be real but in the end they would have handled it together as a couple. **Oceans Apart, bookworm** Then the issue with Vanessa that was a pretty big bomb but it was done within a second no real shock no other trouble from her everything just seemed to happen all at once but then it was all taken care of just as quickly. **It feels like we're oceans apart** I had a real issue with Kari too all that time she kept telling Ginny not to say anything to Tristan and then what she gets drunk and spills it all if she was my friend I would think she was purposely trying to cause a fight and Ginny was not upset with her at all? really? So I had to give this book 4 stars because of the quick resolution of the drama and us not getting to even enjoy them being married while in the same country and them growing their family I wish we could have a book about that. **Oceans apart pulli** I would love a book about Kari and Mike she would be a handful for him but I think he could love her and I think it would be fun to read about their ups and downs. **Pdf oceans at the end of the lane** Then the night before the nuptials at a pre-wedding dinner Kari got shit faced drunk and blurted it out at the table very loudly and crudely not just in front of Tristan but also his Mother and his best friend Mike. **Oceans apart sale** During the wedding ceremony Tristan's ex Vanessa yells out to everyone present that she should be marrying him as his recently deceased Father and her Father had promised it because of a murder from years ago. In my opinion Tristan is very selfish and needs to stand up for himself: **Oceans apart partita iva** Amanda Heartley A really great story and ending for a truly awesome series: **Oceans Apart, booking** True love can work long distances Amanda Heartley God yes Wow I want to say so much but I don't want to ruin it for you. **It feels like we're oceans apart** I want more Amanda Heartley 5 Crazy Ass Stars!!!!Wow! Kari included. Not really liking either Ginny or Tristan. I will finish this series because I'm this far. I love this series the pages flew by. I love how Tristan and Ginny's story plays out.this book was a disappointment. Too rushed and the ending just . ended. Kari is a lush and not a good friend at all. She's in L.A. literally. ...Despite everything and everyone that tries. Talk heebie newbies. I love Ginny too she is loving loyal and sweet. Ms. Amanda did a phenomenal job in this 5th book. I love that T & G are no longer separated. The best way to end the series. I fall in-love with these two. Ms. You seldom read a book that the female character is big. I absolutely salute Ms. Amanda for giving big girls character in it's finest. Thank you Ms. Amanda and wish you continue success in your new books. To say Ginny is a bit stressed is an understatement.Kari heads over to England with Ginny for the wedding. Kari lets the cat out of the bag. They had such great chemistry this time around.
