heart to listen to the problem for which you are seeking help. **The Secret Teachings of Plants kindle paperwhite** In this process rigorous self-examination is important to release you from the issues moral and otherwise that can distract you from listening to the plants and the problem of concern. **The Secret Teachings of Plants booklet** From my personal experience with clinical hypnosis and ecstatic trance quieting the mind and listening to that which is from beyond consciousness is quite directly accessed through these states of trance. **The Secret Teachings of Plants kindle app** Listening to and receiving that which is from beyond you has become an expected experience in our ecstatic trance groups when others in the group have an experience very similar to yours. **The Secret Teachings of Plants healthy** Buhner's writing gave me the feeling that if I was able to continually listen through my heart as did my hunting and gathering ancestors that I could live in health forever or at least to a ripe old age. **The Secret Teachings of Plants ebook** The answers are not found in the simply and linearly prescribed medicinal herbs to heal particular problems but are found by listening through the heart to the spirits of the herbs the problem to be addressed and to what the spirits have to say. **The Secret Teachings of Plants ebook** The emotional aspects of life perceived through the heart from the world around us have been ignored thus we have been receiving only the lifeless information perceived by the brain. **The Secret Teachings of plantstay** This communication and response system between all levels of life is continuous and instantaneous constantly changing making adjustments for the health of Gaia and for life to continue this communication and response needs to be cooperative and not competitive. **Book The Secret Teachings of plants vs** Some time ago from my reading I wrote a summary of five features of the coming New Age: a sense of oneness with the Earth; a sense of community with each other; a sense of harmony and peace; a sense of curiosity and continued learning; and a sense of creativity. **Book The Secret Teachings of plants vs** One source was Carl Calleman who suggests that the world of dualities will dissolve that our need to define such dualities as that which is good and that which is bad or that which is beautiful and that which is ugly will end and we will find value in and appreciation for the diversity that we all have to offer. **The Secret Teachings of plantstay** Stephen Buhner's image of the "Secret Teachings of Plants" has clarified this ending of dualities in his description of a world in which "the entire system and all its parts are cooperative and not competitive. **The Secret Teachings of plantstay** As we return to our rightful place within the evolution of all that which is of the Earth a place where we are cooperative in supporting this system we will with necessity be non competitive. **The Secret Teachings of plantsmart** Each level of life in this complex system of life will respond in its own way to minute changes in its environment that impinge upon it responding rapidly to maintain its health and ability to procreate grow and to maintain the sustainability of all in this complex system. **The Secret Teachings of Plants Mind body** Animals such as the shark and other fish have extremely sensitive receptors to picking up electromagnetic signals that can tell them the kinds of fish how many and where there are available for a meal. **EPub The Secret Teachings of plants vs** Most interesting is the fact that within the hippocampus of the human brain are sense receptors for magnetic waves magnetic signals for interpreting spatial relationships meaning and the health of the heart carrying information internally regarding blood pressure immunity pain and stress. **The Secret Teachings of Plants kindle** I find that this description of communication through electromagnetic fields is parallel to Ervin Laszlo's description of the holographic matrix that contains all information from the beginning of time that is received by the cytoskeletal structure of the brain. **The Secret Teachings of plantstay** Though "because we are trained to ignore these particular kinds of sensory cues and the information they contain most people do not consciously utilize the heart as an organ of perception. **The Secret Teachings of Plants epub file** This is exactly why I use and teach ecstatic trance a trance state that opens us to information from outside the body from outside the brain and heart information that is received below the level of consciousness. **Book The Secret Teachings of plants vs** It has become expected that the ecstatic trance journey experiences within a group are sufficiently alike or similar thus reflecting what we might call "mind reading" providing us with examples of receiving information through the heart from beyond ourselves. **The Secret Teachings of plantstore** This

book and the work of the author has the potential to open a new way of communicating with nature while also revealing one's deepest self to heal the spirit (and in turn the body) through heart-centered awareness:
