

#Moonstruck (#Lovestruck, #2) By Sariah Wilson **Paramount plus login** I wasn't thrilled with Maisy's behavior towards Ryan after CeCe's visit--I kept yelling at her in my head he didn't cheat on you!! Thankfully her brothers laid it all out for her.

## Book of

And she apologized. **Pdf free download** 9781503957824 I was ridiculously happy when I was able to download an ARC of this book! I went to bed early so I could read it and ended up staying up until 2:30 am finishing it. **Y yuan** Again like a lot of books I've read recently Maisy has one parent who is an epic douche although he doesn't make much of a direct appearance but he has left a lot of consequences for his kids and well Ryan's dad isn't exactly going to win any parenting awards either. **O of** As for #2 I understand the reason for putting it in there (it really helped with character development and growth for Maisy) but as for #1 I thought it was completely unnecessary. **O ok** I think this might be the typical middle-book syndrome but either way I am looking forward to the next book in the series! Sariah's writing always make me laugh and I love her brand of humor.

**Ebook** Yes the romance was front and center the music and songs were beautiful but the love that Maisy had for her mother and what she would do for her was just plain beautiful. **O of** Of course there had to be a little angst thrown in for some additional drama but in the end she gave us a beautiful and touching ending that truly had me smiling from ear to ear. **Paramount plus login** But can he convince her to take a chance and trust him with her heart? #Moonstruck (#Lovestruck #2)I decided to read this one again sometimes I'm just in the mood for a Wilson book! I have read the first book in this series a few times so I decided to jump into this one again. **Y jacobson** It was still fun to see behind the scenes I especially liked learning about tours the tour buses (I may have googled some pics to help me visualize it all) and just everything that goes into making a big tour work. **Book review** 9781503957824 #allthelove #wordscannotadequatelydescribethefeels #newfavoriteshipcouple #don'twaitgrabacopynow #happyhappysigh #keepemcomingSariahWilson #timeforareread #permagrinforever #onemorenight #Maisysong #RyanandMaisy4ever #maybeIshouldstophastagin? #therulesaremeanttobebrokenThis book! Oh my heavens! I was super duper excited when I saw that Sariah Wilson wrote another book in the #Lovestruck series! Dancing commenced and some happy squeals and then the wait began. **Pdf maker**

#whyhaven'ttheyapprovedmeyet?????? So then after an excruciatingly looooooong 2 days (I know so rough having to wait that long) I got the approval email squealed and possibly did some more Carlton dancing much to the shocked eyes of my daughters wondering what in the world was going on with their momma. **Y jacobson** I did try to sleep but it was pretty close to reading #everypossiblesecond! I absolutely loved this one! I loved the first book #Starstruck but I might have to say this one was even better (at least for me)! Can I give it more than 5 stars please? Maybe it was all the music references because I am a huge music lover singer pianist oh boy did he ever!Can I just say the music video????? Oh sweet heavens. **M mm** Happy Reading!!!-----

-----**(This was my pre-read and pre-review excitement for the book being announced!)\*squeal\*** Did anyone else do the Carlton dance when they saw this????? Amazon has the cover up that's where I originally saw it!!! So so excited. **Y yuan** 9781503957824 I heard so much about this book from my GR friends Julie Carpenter Kathy \* Bookworm Nation and Aimee (Getting Your Read On) that I went to NetGalley and requested it even though I already had 4 books from them that I had to review and books coming in from my author review teams. **Paramount plus login**

#somanymorebooksread #imustbecrazyOnce I got the approval email and finished my current book I started reading--#OHMYGOSH #didn'twanttoputitdown #superswoony Maisy and her brothers haven't had a easy life with a deadbeat musician for a father which leads to her mother having a breakdown and getting into a life-altering accident while Maisy was in high school. **O of** Oh My! There were so many parts that were my favorite--definitely when he called her onstage to sing her slowed-down version of his hit One More Night the making of his music video when he wrote a song about her the surprise birthday party on the tour bus and when she told her mother about the

incident during one of their visits she realized that she'd made a HUGE mistake. **O ok** I loved how she took ownership of it realized Ryan wasn't like her dad at all it was her witty humor plenty of bantering and a fun host of supporting characters this one was a winner in my book. The books contains some pretty great kissing and lots of innuendo. **Pdf** This girl who loves music and is in a band with her brothers gets a backstage pass to meet this super famous dude singer. **O ok** This girl who was so overcome by her intense attraction that she couldn't resist getting close to him and blushing anytime he looked at her: **O oo** When I was 18.

## East croydon racist train

Anything music related I am there! And these two characters were fabulous! Maisy has had some tough moments in her life, **Paramount plus login** I loved how the author showed the growth and developing strength of Maisy. **Photoshop** She was already amazing and strong but she just grew and developed even more. **Shein liverpool pop up** I loved watching her trust grow and realizing that it was ok for her heart to find someone to love and trust. **O ok** Ryan De Luna was a hoot! He and Maisy banter back and forth: **Paramount plus login** Not a popstar and not her next meal ticket or a good time, **O of** He was just another guy and had to prove himself to her, **Pdf free download** And boy.

## Paramount plus login

And when he Lloyd Doblars her at the end. **M ml** #iceandfiremakesteam #superswoonykisses #breaktherules #shesmyMaisy I don't have brothers so Maisy's brothers drove me a little crazy with their overprotectiveness, **Kindle app** I wanted to tell them She's a grown woman for heaven's sake! I liked Maisy and her snarky comments, **Pdf reader** The other was I just needed my steak to be on my plate. **Shein liverpool pop up** #RyanandMaisyforever So happy I managed to fit this book into my reading schedule, **Emmerdale spoilers tom king** Now I need to make time to read the first one #Starstruck. **Y yuan** Thanks to NetGalley and Montlake Romance for letting me read and review this book: **Pdf reader** All opinions and thoughts expressed in my review are my own: **N naam ki rashi** This felt very similar to Sariah's book #Starstruck (which I loved), **Y jacobson** While #Starstruck features a movie star #Moonstruck features the lead of a popular band: **O ok** With sizzling chemistry.

## Y yuan

Maisy Harrison is a musician surrounded by three older very protective brothers (their interactions are funny): **Ebook converter** Maisy also happens to be the lead singer and guitarist in a band with her brothers called Yesterday so there's no escaping them. **O of** Music is everything to the siblings but not one that brings an income - they all have day jobs jobs they really really need: **Kindle online** However everything changes the night her best-friend gets them backstage to megastar Ryan De Luna's concert. **Shein liverpool pop up** To say Maisy leaves an impression - both with her music and personality would be an understatement, **N nn** The chemistry between Ryan and Maisy was clear and their interactions entertaining at the start and then as things develop sweet, **London superloop 2** This was a nice read but not one that I found myself getting lost in time did not become a forgotten reality, **O ok** Nevertheless there were some good moments in this that touched me and had me amused: **Pdf editor** 9781503957824 3 stars Getting a chance to meet and banter and fall in love with your favorite musician? YES PLEASE. **Paramount plus login** And did I imagine myself as Maisy and Ryan as Niall Horan? YOU BETTER BELIEVE I DID, **London superloop 2** It is unrealistic and completely kills any interest I have in the characters: **Book** #Moonstruck is an insta-love of

sorts BUT it is done in a way that is actually believable and not cringe-y, **Paramount plus login** Insta-lust is a thing and it is definitely something that I understand: **O ok** Maisy our MC is struck hard with the insta-lust bug when she meets our hero Ryan de Luca, **O of** Even though their personalities clash she is still drawn to him physically (Ryan being super crazy ridiculously hot probably didn't hurt), **Book review** Normally at this stage in the game (like 25% into the book) the characters pronounce their undying love, **Photoshop** Although the romance still moved a bit faster than I usually like it was still believable and organic, **Kindle** You could feel the chemistry between the two characters and I found myself rooting for them throughout the book, **Kindle website** The two biggest concerns I had with this book were 1) girl-on-girl hate and 2) the misunderstanding-that-wouldn't-be-a-misunderstanding-if-they-talked-to-each-other trope. **Paramount plus login** Slut-shaming on Maisy's part and unexplained hate/name calling on another character's part didn't need to be in the story, **Y jacobson** It didn't move the story forward and instead just added a lot of negative to a book that was all about forgiveness: **Paramount plus login** I was a bit disappointed in this book as I completely fell in love with her first book in this series #Starstruck. **Book london** I'm excited to read more of her works =)-----No better way to end your day than with an ARC from one of your favorite authors! 9781503957824 4: **Pdf to word** 5 starsI knew from reading the blurb that this was one story that I was really going to enjoy. **Book** New to me author Sariah Wilson really impressed me with the way the story flowed and with the characters that she built. **London superloop 2** The only drawback that I had was Maisey and her woe-is-me attitude: **Kindle online** There were times in the story that I wondered why Ryan put up with her and her attitude, **O of** Ryan was the rock star that had the reputation to match his status. **O of** When he meets the one woman who had the guts to tell him like it was he knows he met his match and may be the one who could bring him to his knees. **Ebook subscription** Now to convince her to help him change his image and his music, **Pdf reader** After her father she cannot and will not try to even trust anyone in the music industry even though she's a musician herself, **Y jacobson** Unfortunately her and her brothers can't seem to make any headway in the business, **Emmerdale spoilers tom king** That is until one fateful night one misplaced phone several days of texts and a surprise appearance of the man that she could easily hate. **Book of** Now with her brothers right beside her she has major decisions to make, **Kindle** She's not sure how to take the Ryan she has come to know and fall in love with. **Photoshop** I give Sariah Wilson kudos for writing such a heart-breaking and intense storyline: **Y jacobson** Then Ryan goes and steals my heart with his actions and his words. **Book** 5 stars\*\*\*I don't think you can go wrong with a Sariah Wilson book: **N name photo** She has a writing style that appeals to me and I love it!This is the second book in the #Lovestruck series: **N naam ki rashi** It's basically about famous people falling in love with the guy/girl next door. **Paramount plus login** From the very beginning the dialogue between Maisy and Ryan is amazing: **Ebook collins** It makes Maisy hard to trust a man but a musician is an absolute no! That is until she meets Ryan and he breaks down most of her barriers: **O ok** The relationship between Maisy and her brothers Ryan and her brothers her brothers and attractive females, **O of** Maisy and Ryan are attracted from the beginning but she puts up boundaries and fights her feelings: **Pdf free download** She has vowed to wait until marriage to have intimate relations with a man and it adds for some interesting conversations. **Booker prize 2023** It was clean and there was no language but they definitely mentioned sex and there were some sexual innuendos as well: **O ok** 9781503957824 Over one million 'likes'—but only one of them matters: **Arm holdings stock price** After pop star Ryan De Luna praises Maisy Harrison's YouTube cover of his classic hit he offers Maisy and her fledgling band the opportunity of a to be his opening act: **Kindle unlimited** Music may be Maisy's life but she has one ground never date a musician, **Photoshop** If only she didn't feel so vulnerable to his larger-than-life charm: **Book pdf** And maybe now more than ever when he asks for her help to shake off his playboy image. **O of** How can she resist playing the part of his fake girlfriend for the duration of the tour? Ryan's never met anyone like Maisy: **O of** She sees past all the star-studded fame and treats him like any other guy. **Y yuan** And the more time they spend together the more he finds himself falling for her. **Photoshop** Now he'd like to make their imaginary fling an IRL thing: **Epub**

**download** To be honest I like music but I'm not a super fan by any means, **Photoshop** I liked that they had so much in common both with their music and personal lives: **Kindle scribe** I liked that they were able to really get to know each other from all their time #roadtripping on the tour bus. **Y yuan** Great setting for a romance and one I hadn't ever read before: **Book london** I thought it was so refreshing to have a heroine who wanted to wait for marriage and even more refreshing to have the guy so respectful of that wish: **Ebook app** It also made their love story more memorable and truly romantic: **O ok** I liked the supporting cast; her three loving and overprotective brothers were fun: **Photoshop** Reminded me of my three older brothers! Overall this was a great read! Content Rated PG Clean romance kissing & talk of waiting to be intimate: **O oo** 9781503957824 Moonstruck is book two in the Lovestruck series by Sariah Wilson. **Protests** I really enjoyed the first book in this series Starstruck so I jumped at the chance to read this one. **Paramount plus login** I won this in a Goodreads giveaway! This is my third book by this author. **Paramount plus login** You do not need to have read the first book in this series in order to read this one, **Kindle website** Maisy Harrison is the only girl the youngest with three older very protective brothers, **O ok** Maisy is lead singer and guitarist in a band with her brothers called Yesterday, **O of** They all hold daytime jobs since their music barely brings in any income: **Arm holdings stock price** But everything changed the night her best friend got back stage passes to a Ryan De Luna concert, **Y jacobson** He used to be known for his wild ways but in the recent years has really seemed to clean up his act, **Paramount plus login** He dresses different conducts himself differently and his music seems to have matured: **Pdf reader** Not to mention the fact that he is about the best looking guy on the planet, **O of** But Maisy has a strict rule she never ever dates musicians. **Photoshop** Maisy had an absentee father who was a musician and after seeing what he did to her mother all her life she will never put herself through that. **Photoshop** Still when she meets Ryan for the first time there is some kind of chemical reaction between them. **Pdf reader** All the more reason to keep her distance from Ryan De Luna: **Epub app** Like ice and fire froze and burned through me at the same time even though that was physically impossible. **Book pdf** "After seeing a YouTube video of Maisy's band doing one of their songs Ryan invited her band to go on tour with him as his opening act, **N naam ki rashi** It was everything they had ever dreamed of and would help them get out of a financial bind they were in, **N name dp** Ryan was desperate to clean up his image and with the attraction that sizzled between he and Maisy it would be so easy to convince the world that they were dating. **Pdf reader** So he asked her to be his fake girlfriend and she agreed: **Book store** Only Ryan's feelings were quickly becoming real and he sensed that Maisy's were as well, **Y jacobson** He respected her wishes but he wanted more from her than a fake relationship. **Photoshop** "As things progress with Ryan and Maisy they both realize that what they have is special and wonderful. **Shein liverpool pop up** But Maisy is still hanging on to her old hurts from her father, **Photoshop** Can she really move forward with Ryan when she hasn't let go of the past? "Sweetheart do you know what happens when fire meets ice? Steam, **O of** Maisy is so mature for her twenty-two years but still has so much to learn: **Pdf merge** This author has such a beautiful way of telling her stories, **London superloop 2** I like that even though the book is about Maisy and Ryan we get a little hint of what is happening with two other couples as well, **Y jacobson** I really would have liked to walk away with a little glimpse into their future to see how things were going. **Shein liverpool pop up** I usually read books that are a lot more steamy but surprisingly enough I didn't really miss it here: **Photoshop** Both books in this series are very enjoyable and if you are looking for a romance that doesn't have sexy times in it this is sure to please. **Y yuan** #patienceisn'tforeveryone! Then Kathy Jo a goodreads friend told me it was available on NetGalley, **O ok** Stop the press I went straight over and requested a copy! Then the waiting began. **O of** Hee Hee! Just kidding they know I get excited a lot and laugh and dance and squeal in excitement: **M meaning** And them singing together? And the song Maisy? And and and. **Shein liverpool pop up** it's never ending y'all! Seriously so many sweet and gentle moments plus some sweet and spicy moments. **Epub to kindle** Lol! They were great brothers but I wish they would have opened up with her a little more, **Paramount plus login** Yes I totally and completely understand it's fictional and needed for the storyline, **Paramount plus login** But I can vent a little can't I? It all worked

perfectly for the review and gave me moments of wanting to tell them to stop babying her and tell her everything, **M music** In the end they did though so all is forgiven! I want to tell you so many more moments about this book but I just can't spoil it for you: **O ok** If you need a sweet and spicy romance novel (yes clean yes there are some mild innuendos see content section below) to enjoy and devour this summer grab this one: **Photoshop** And enjoy the ride the music the family relations and the most important relationship of all Ryan and Maisy's: **Arm holdings stock price** Maisy believes in waiting for marriage for intercourse and won't back down on that rule. **Y yuan** Ryan is a pop star and has been since he was very young. **Y yuan** So he does tease Maisy and make small comments about him being available: **Pdf editor** They do have a conversation about notching in terms of pop star band members and groupies making conquests, **Ebookers** There are a couple scenes where they make out but no sex scenes, **O ok** Some other talk about pop star lifestyle but nothing graphic. **Book pdf** I would not let my younger teen daughters read this but would recommend for more mature readers, **M mm** I received a copy from the publisher Montlake Romance via NetGalley: **Paramount plus login** Because of her father Maisy has a rule she lives by--Don't Date Musicians!! She got the nickname Ice Queen in high school. **M book** Ryan De Luna is a huge popstar who seems to have it all but his parental issues are quite similar to Maisy's: **Ebook creator** He's instantly attracted to her because she's not a Luna-chick or a Luna-tic: **Paramount plus login** She sees and treats him as a regular person not as El Caliente as the media refers to him. **Y yuan** A face paced engaging book from author Sariah Wilson that I sacrificed sleep for: **Y jacobson** Content: clean (no language no sex) but there are some passionate make-out scenes and some talk of sex and past indiscretions but nothing described and nothing crude or crass[1]

But there is a definite heat factor between them.Source: I requested a copy from Netgalley. All thoughts an opinions expressed are my own. 9781503957824 I was a little too cringed out. The dialogue. The dude. Eye roll. She insults him a bit and he can't resist. He asks her to go on tour with him. They fall in love. But ugh the things this guy said to her. CRINGE. Not my kind of romance anymore. Some she hasn't healed from and she needs to. Someone that could be her true love. He knew she saw him as himself. She didn't care about all the statuses and such. My favorite was Plastic peacock leeches. Pleeches. I actually laughed out loud at the one. I didn't need to know what it did during its downtime. I love when I find a book I don't want put down. I certainly liked Maisy and her sass and confidence.Acquired via KU.I 100% of the time abhor insta-love. It makes them seem shallow and way too superficial. That is not the case here. And enjoy it I did. Ryan and Maisy were interesting both together and apart. Both him and his label want the image changed.Maisey has one rule ... never date a musician. An offer ... an agreement ... Maisey's life is changed. This story was more than just a romance. It truly touched my heart. Maisey's mother was the heart of this story. 9781503957824 \*\*4. The banter drew me in and didn't let me go.Maisy and Ryan have parent issues. is fantastic. The core of characters is solid. I could not have asked for more.The romance is pretty intense. Ryan is a gentleman I would have LOVED this. But not at 29. That goes double for a heartbreaker like Ryan. I enjoyed it just as much the second time around. I like that this one focused on the music industry. Maisy and Ryan had a great love story. They just #clicked. I loved the swoony moments and loved their fun banter. They were really falling in love not just lust. So yeah I was a big fan of the romance. No language or violence. This is a stand alone. Like her brothers music is everything to her. Ryan is a mega star. She really doesn't date at all. Her brothers make it pretty impossible. As a result she is saving herself for marriage. A zing that effects her from her head to her toes. "The attraction was so intense it was almost chemical. Like he had scientifically bewitched my hormones. Somehow I felt both hot and cold inside. He wanted a real one. "I had to stay strong. Remember my rules. Not fall in love. And never no matter what I wanted let him kiss me."This was a super sweet story of love and forgiveness. The entire book is told from Maisy's point of view. My biggest complaint is that there is no epilogue. #stillakidatheart! I jumped on NetGalley and downloaded my copy. Woohoo!No I didn't read it straight through. Those two.Maisy's family were awesome one moment and aggravating the next. Her brothers and I had a love and frustrated

relationship. Content: Clean. He has lived that lifestyle. Maisy doesn't agree and lets Ryan know where she stands. Mostly mild innuendos scattered throughout. All thoughts and opinions in the review are my own. What happens when fire meets ice = steam. 9781503957824
