While I really liked the concept of this book and enjoyed many of the questions but it felt targeted to a small audience. **The couple's quiz bookpa** There are some questions that could be used but I didn't find a single quiz that I felt was something that my husband and I would enjoy all the questions or that was something we could use as an activity in marriage/premarital counseling. **Book The Couple's Quiz book series** I would definitely recommend buying the physical version so that you could mark it up easily! However you can still highlight etc on a kindle and there's a note at the beginning for a how-to which is nice. **The Couple's Quiz Book bookworm** Alicia Muñoz Y'all "The Couples Quiz Book" let me tell you-Oh my giddy aunt what a fun book! When my husband and I get the rare chance to go out sans kids we find that we often have a hard time getting back into the groove of talking about "us" as opposed to our kids. **The Couple's Quiz Book book club** I know this is common because a couple years back a friend of mine gave us one of those convo card starter game things to keep in the car for such a time as this. **Book The Couple's Quiz book series** Then he said "Are there more?" This is husband-speak for "That was fun let's keep going!" It was a great quick way for us to reconnect after a day of being separated. **Book The Couple's Quiz books** We realized that we knew quite a lot of random things about each other and even had some creative answers for some of the questions that made the other one of us go "I didn't know you realized that about me!" or "That's a better answer than what I was thinking! It's amazing that there are two copies of the quiz so each partner can take the quiz without seeing the other ones answers. **Book The Couple's Quiz book 2** Alicia Muñoz As someone who's been struggling with not only social isolation but also a long-term long-distance relationship in which our busy jobs allow us only short daily calls this book was designed for me. **The Couple's Quiz Book epub.pub** I was hesitant at first whether I should include this book in my reading challenge for 2020 because it is mostly a quiz book but heck - I read it I loved it I talked about it I laughed about it so here it is. **Book The Couple's Quiz booker** So when The Couple's Quiz Book came out I was drawn to the author AND the really cool premise: a book of quizzes crafted by a professional counselor to bring you and your partner closer to each other. **Book The Couple's Quiz book 2** The only remark I have is that there are some questions which are specifically US-centric such as your favorite childhood Halloween candy or favorite part of the country which I feel should have been left out for the international readers. **The couple's quiz bookpa** Alicia Muñoz

But it just wasn't quite what I was hoping. Alicia Muñoz The idea for this book is great. The way this book fails is in the questions themselves.e. intimacy your past your future hobbies etc. He said "I like quizzes." So we did the first one. Topics are fun and really probing. We did three quizzes or one chapter in about 20 mins. I'm ready for a rematch tonight on a new topic. Miesto seriálu víno a pár kvízov. But enjoyable and useful nonetheless.čo vlastne naplňa táto kniha.prečo máte vlastne taký názor na daných ľudí. a mať sa radi. Podnecuje zvedavosť o seba aj o vášho partnera. Hrať sa a byť trošku zvedaví. Alicia Muñoz.
