Survival and loyalty.history hates lover trope and gives it a whole new life. Circe / The Song of Achilles What a masterpiece.so did I.I will never regret it.We all know the story. Who would say I don't know anything about Achilles. However I was surprised.Patroclus is the reader. He is secondary the one who counts is Achilles.Madeline Miller offers a new version of this myth. Perhaps more human? I can't really describe it.The story in this book reads in the details and detours.Can we also talk about the ending? (Without spoiling anything.if we can spoil the ending of the Achilles myth). We know the ending before we even start the book. I think it will stay with me forever. The Song of Achilles is her first novel. Truly hard to put down. She's inspiring me to be better. Love this exploration of what it means to be human. Loved the ending too
