Some really good and some just ok stories. A missed opportunity. that being said it fell short in many ways. The execution on this was fantastic. I would read this again. Decent though not terribly groundbreaking. I was much better than I thought it would be. I love the artwork and very good stories. I like that the book's stories are their own. This lets the book's stories be the main message. The book finishes with a varient cover gallery. The vignettes are fine. Not bad
