

cosmic code: Book VI of the Earth Chronicles (Earth Chronicles, 6) By Zecharia Sitchin **Cosmic codejunkies** 978-0061379246 Adds to understanding 978-0061379246

Many thousands of years ago a group of extraterrestrials from another planet guided the evolution of life on Earth determining the existence and nature of humankind as we know it today. **The cosmic code book** How did the master builders from the stars construct the miracle called man? Is the DNA that is at the core of all life in the universe a 'cosmic code' that links Earth to heaven and man to God? In this sixth volume of The Earth Chronicles Zecharia Sitchin unveils writings from the past to decipher prophecies and reveals how the DNA matched Hebrew alphabet and the numerical values of its letters serve as a code that bares the secrets of mortal mans fate and mankinds celestial destiny. **Cosmic code book vi** cosmic code: Book VI of the Earth Chronicles (Earth Chronicles 6) I don't want to have a limit on how many words I have to write in a review that is one of the reasons I don't take the time to do these on . **Cosmic codekaze** Always keeping an open mind and trusting 'yourself' to find your own truths Reality is what we create for ourselves; but if we have already been 'programmed' by society/religion/culture/education we must open our minds to 'other' possible realities. **Book cosmic code** 978-0061379246 I read all seven of Zecharia Sitchin's Books and found them all very interesting until the Sitchin began to restate the same material over and over again after a while it was like rereading a book you had already read. **Cosmic codejunkies** One of a handful of scholars able to read the Sumerian cuneiform tablets he has combined archaeology ancient texts and the Bible with the latest scientific discoveries to retell the history and prehistory of mankind and planet Earth: I find the Ancient Sumerian mythology to be endlessly intriguing: **Cosmic code book vi** Sitchin is never afraid to lay it out plainly (with heaps of research). **EPub cosmic code** 978-0061379246 Happy 978-0061379246 Have to have a PHD to understand everything. **EPub cosmic codepen** Some of it out dated 978-0061379246 I love all of Sitchin's books, **Book cosmic codec** This was one of two needed to complete the 'Earth Chronicles' series. **Book cosmic codex** I'm a big fan of the 'Ancient Aliens' tv series and the whole ancient astronaut theory so this was a must. **Book cosmic consciousness** All of these are informative and he really did his homework. **Cosmic code ebookee** Like Erich Von Daniken.

## **Book cosmic codec**

Zecharia Sitchin shared the same ideas but from a slightly different perspective, **Book cosmic consciousness** Each one is basically a different culture or civilization like Sumeria or Egypt and their 'gods': **Cosmic code pdf editor** I have a lot to write and I don't feel like writing lengthy reviews on each of them. **Cosmic codejunkies** there for don't expect me to write anything about your co, **Cosmic code booker** 978-0061379246 This book makes you completely rethink everything you thought you knew or were told about the history of the human race, **Cosmic codex** Being an atheist it also made me reconsider the writings in the bible not as a 'christian/religious' history but as guidance from a past and now lost source of wisdom, **Cosmic codejunkies** Fascinating 978-0061379246 As I have stated in another review of one of the other volumes in The Earth Chronicles Dr. **Book cosmic consciousness** Sitchin's books fill a niche too long ignored by other scientists, **EPub cosmic codehs** His straight forward interpretations of the so called ancient myths makes so much sense than the products of the other researchers who act as lemmings in their

writings: **Cosmic codejunkies** If what he holds out as fact in his books is true the books are very logical and well written, **Kindle cosmic codehs** The problem remains he tried to get to many books out of the subject matter he had, **Cosmic coding board game** 978-0061379246 Nice read 978-0061379246 Zecharia Sitchin is an internationally acclaimed author and researcher whose books offer evidence that we are not alone in our own solar system, **Cosmic codekaze** His trailblazing books have been translated into than twenty languages; his first one an oft quoted classic celebrates the thirtieth anniversary of its publication, **EPub cosmic codepen** A graduate of the University of London and a journalist and editor in Israel for many years he now lives and writes in New York[1]

Sitchen knocks another one out of the park. Another good volume to his series. These are facts and science not fiction..
